

Nilabh Anand

 nilanand |  nilanand |  nilanand.com |  nilabh.anand@stonybrook.edu

RESEARCH INTERESTS

Computational physics, general relativity, cosmology, and gravitational physics

EDUCATION

Stony Brook University

Stony Brook, NY | 2028

B.S. in Physics & Astronomy

COMPUTATIONAL PROJECTS

Damped Harmonic Oscillator Solver

- Implemented a numerical solution of the damped harmonic oscillator using Euler's method in Python and NumPy
- Classified damping regimes and visualized displacement and phase-space trajectories using Matplotlib

Projectile Motion Simulation

- Simulated two-dimensional projectile motion using iterative time stepping and NumPy arrays
- Computed horizontal and vertical motion numerically and visualized projectile trajectories with Matplotlib

Falling into Infinity — Personal Blog

- Write reflective essays exploring the process of learning physics, problem-solving, and intellectual growth
- Maintain a personal platform documenting academic development and evolving approach to physics

TECHNICAL SKILLS

Programming: Python, Fortran, C++

Scientific Computing: NumPy, Matplotlib, Numerical Methods

Tools: Git, GitHub, LaTeX

Languages: English (Fluent), Mandarin (Fluent), Hindi (Fluent)
